- **Title:** The Invisible Man

Author: H.G. Wells

Price: Price not available

Description: An Apple Books Classic edition.

“Alone-it is wonderful how little a man can do alone! To rob a little, to hurt a little, and there is the end.” What would you do if you were became invisible? Would you use that power for good, or would you become consumed with the freedom it afforded you? Griffin, the antihero of H.G. Wells’ classic novel, definitely belongs to the latter school of thought. A misunderstood genius with albinism, Griffin has suffered taunts and isolation his whole life. As he descends into madness, his plans become far darker than simple revenge on those who have wronged him.

In addition to this creepy novel, H.G. Wells—who is widely seen as the father of science fiction—also wrote *The War of the Worlds*, *The Time Machine*, and *The Island of Doctor Moreau*; Besides killer plots, his work provides chilling insight on human nature. *The Invisible Man* is a story about cruelty, curiosity, and unfettered power. Read it—and you’ll immediately notice its inescapable influence on modern literature, movies, and comic books.

Author: Arthur Conan Doyle
Price: Price not available
Description: An Apple Books Classic edition.

Both Pompeii and Petra were excavated in the 1800s, and as explorers were searching for (and finding) more mysterious ancient cities, authors were finding new inspiration. Among them was Sir Arthur Conan Doyle, already famous for his Sherlock Holmes mysteries. In 1912, he published *The Lost World*, branching out into the popular genre of adventure fiction and crafting a story that will appeal to fans of *Jurassic Park*.

Ned Malone is a reporter who's just been told by the love of his life that she wants a man who embraces danger. And so, he does what any man would do: He gathers a crew and sets off on an expedition with a professor who claims to have discovered living dinosaurs. What follows is a suspenseful story with hints of science fiction and Conan Doyle's flair for mystery. After landing on a South American island untouched by time, the crew faces a betrayal that leaves them stranded amid terrifying dangers. Will they escape—and do they ever find dinosaurs? We're not telling. You'll just have to read the book.
